Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 7-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Godwin, Jr. (3,453,493). Godwin discloses, in fig. 1, a floating roof tank comprising an electrically conductive bonding trap 20, at one end 22 contacting with an inner wall of the tank below liquid level and connecting a second end to a floating roof 16 below the liquid level.

3. Claims 1, 3, 4, 6, 7, 9, 10 and 12-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Hampton (1,930,953). Hampton discloses, in fig. 1, a floating roof tank comprising an electrically conductive bonding trap 8 (metal fabric), at one end 22 contacting with an inner wall of the tank below liquid level and connecting a second end to a floating roof 16 below the liquid level.

4. Claims 1, 3, 4, 6, 7, 9, 10 and 12-15 are rejected under 35 U.S.C. 102(b) as being anticipated by Springer (2,888,161). Springer discloses, in fig. 1, a floating roof tank comprising an electrically conductive bonding trap 60, at one end 22 contacting with an inner wall of the tank below liquid level and connecting a second end to a floating roof 16 below the liquid level.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 2, 5, 8 and 11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hampton or Springer. Although, Hampton or Springer is silent as teaching the electrical conductive bonding trap being material as claimed, it would have been obvious to one having ordinary skill in the art at the time the invention was made to make the bonding trap of material as claimed, since it has been held to be within the general skill of a worker in the art to select a known material on the basis of its suitability for the intended use as a matter of obvious design choice. In re Leshin, 125 USPQ 416.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to LIEN TM NGO whose telephone number is 571-272-4545. The examiner can normally be reached on Monday through Friday from 8:30 AM -6:00 PM.
